"As a recent graduate in web development, I offer proficiency in **ReactJS, Redux,** and **JavaScript.** I'm enthusiastic about crafting exceptional user experiences and responsive designs. I'm committed to learning and adapting to evolving industry standards, and I'm eager to contribute my skills to create engaging, user-centric web applications."

Experience

● **D2D Founding Team**
   Frontend Web Developer | 07 August, 2023 - 07 November 2023
   - Building a network by attending industry events, conferences, and online communities to learn from and collaborate with other professionals.
   - Understanding of responsive web design principles to create websites that adapt to different screen sizes and devices.

Projects

● **Movie Review**
   - I designed the app's user interface by utilizing React js and Tailwind Css to enhance interactivity and user friendliness.
   - **A Function is added there to add movie and also add comments.**
   - I excelled in Redux and Redux Toolkit for streamlined state management.
   - I used React hooks and a router to make navigation smoother and add functionality.

● **Movix**
   - Created the app's user interface using React.js and SCSS ,making it more interactive and user-friendly.
   - Seamlessly integrated the IMDB API for comprehensive movie information.
   - Showcased skills in state management with Redux Toolkit.
   - Implemented functionslity with React Hooks and Router for smooth navigation.

● **Blog**
   - I employed React js and Tailwind Css to craft an engaging and user- friendly user interface for the app.
   - **I used** firebse **for dealing backend.**
   - I used Redux and Redux Toolkit for effective state management.
   - I made navigation smoother and added functionality using React hooks and a router.

TECHNICAL SKILLS
